

# INTRODUCING MASTER HEALTH CHECKUPS BY MIOT'S EXPERTS IN SEYCHELLES

## TAKE YOUR FIRST STEP TOWARDS A HEALTHY FUTURE

MIOT (Seychelles) Medical understands the evolving health needs of Seychellois and endeavours to provide exceptional care. Prevention is the first step towards good health, which is why we offer master health checkups for both men and women, addressing their unique health risks. They encompass the important diagnostic tests you need to undergo every year. The tests are performed using advanced equipment for high-precision diagnosis, which helps in making accurate treatment decisions.

Read on to know more about MIOT (Seychelles) Medical's master health checkup packages backed by unparalleled healthcare expertise.

# MIOT'S NEXT-GEN TELEMEDICINE ENABLES REAL-TIME MONITORING

Need to consult a specialist? Our new-age telemedicine brings expert doctors from MIOT International (Chennai) right next to you in real-time. Essential diagnostics can be performed during the teleconsultation and real-time feedback received from the doctor. This helps ensure treatment planning without delay. Experience a seamless process from diagnostics to MIOT's world-class medical care and regain perfect health.

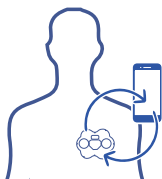

**GENERAL PHYSICIAN  
AVAILABLE ON-SITE**

Need to consult a general physician after your checkup? They will be available on-site to address your health concerns. If you need specialised care, they will refer you to experts at MIOT International, Chennai.

**MIOT'S  
ADVANCED 4D  
ULTRASOUND**

Your master health checkup includes USG scans that are performed using our cutting-edge 4D Ultrasound machine. It delivers high-precision imaging with exceptional clarity, which helps in making accurate treatment decisions. It is designed for Echo study (heart), ultrasound imaging of the chest, breasts, abdomen, liver, kidneys & urinary bladder, pelvis and Vascular Doppler Studies.

**WE FOLLOW YOUR HEART  
EVERYWHERE, WITH OUR  
REVOLUTIONARY  
HOLTER RHYTHM PATCH**

If you undergo an ECG but there needs to be continuous monitoring to keep a check on your heart, our experts may recommend wearing the Holter Rhythm patch. You can wear it and carry on with your everyday activities, while it continuously monitors your heart. It helps to evaluate heart activity and stroke risk. It is ideal even for younger patients. Our experts are listening to your heart to protect it, every moment of your day.

## YOUR DESTINATION FOR COMPLETE CARE

From undergoing a master health checkup to accessing super-speciality care, you can count on MIOT to be by your side as you welcome a healthy future.
